

Best relationship,

Together we go through special times. We are taking several measures to prevent the possible spread of the coronavirus, in order to ensure that both our business activities are continued, but particularly because of the importance of everyone's health.

The following applies to deliveries to our company:

You can enter true the main entrance of our building at Veersedijk 103.

When transferring or loading the goods, our employees remain at the appropriate 1.5 meters distance and we request that you observe the same rule.

The rules as instructed by RIVM also apply in the workplace and at the office. We expect everyone to comply with these rules.

The following applies to deliveries to your company:

Our driver puts the name of the person who receives the material on the delivery notes and takes it for our administration. So, you don't have to sign yourself. A copy of the delivery notes is placed with the material.

When delivering the goods, the driver remains at the appropriate 1.5 meters distance and we request that you observe the same rule.

With these adjustments, we hope to keep our service at the level you expect from us.

We thank you for your understanding and cooperation.

Finally, we wish you and everyone around your strength, but above all health, during this difficult period.

Sincerely,

BBS Industrie BV
